

# **Bible Recommendations**

There are so many incredible Bibles out there for kids!  
Choosing a translation is such a personal choice, so you'll want to do your own homework.

## **The Bible in Pictures for Toddlers (Ages 1-3 yrs)**

This book is easy for toddlers to follow along as grown-ups read aloud. From the favorite stories of Bible heroes, like "Joseph Gets a New Coat," to the lessons Jesus taught in "A Man Hunts for His Lost Sheep," kids will love hearing stories from The Bible in Pictures for Toddlers.

## **The Big Picture Storybook Bible (Ages 2-5 yrs)**

The Big Picture Story Bible presents this remarkable true story. Simple words and striking illustrations unfold the storyline of God's Word from Genesis to Revelation. All ages will enjoy this exciting discovery of a God who keeps His big promise.

## **The Jesus Storybook Bible (Preschool age)**

This became almost an instant classic for preschoolers, and we love it because every chapter points to Jesus. As with most preschool Bibles, The Jesus Storybook Bible is not a word-for-word translation but rather a paraphrased version.

## **NIRV Kids' Quest Study Bible (Elementary age)**

We almost exclusively use the NIRV and we LOVE this version of the Quest Study Bible. It's not only a kid-friendly translation (3rd-grade reading level), but it answers more than 500 of the most commonly asked questions about the Bible!

## **NLT Hands-On Bible (Elementary age)**

We also love the NLT Hands-On Bible by Tyndale House. It's an accessible translation (6th-grade reading level) and gives kids a hands-on way of experiencing the biblical story.

## **The Adventure Bible (Elementary age)**

This is another stellar study Bible for kids. It's available in NIV (8th-grade reading level) or NIRV translations. There are explanatory portions sprinkled throughout, but what we really love are the devotional sections.
